## Description of Project:

FY18 - \$220,000 The 2014 March Special Town Meeting appropriated funds to renovate the Community Center. At the time of the funding request, the design of the sidewalk from Marrett Road to the Community Center was not yet complete. The design of the sidewalk is somewhat complex in that it needs to overcome the steep grades and still comply with accessibility regulations, while also not conflicting with the land that remains under the ownership of the Scottish Rite. The conceptual plan has been presented to the Board of Selectman and is proposed to be a bituminous concrete sidewalk with pedestrian level lighting.

## Justification/Benefit:

There is no public sidewalk to the Community Center. Pedestrian access from Marrett Road has been identified by the public as a requirement for the Community Center.

## Impact if not completed:

If the sidewalk is not provided for pedestrians, than those choosing to access the Community Center without travelling by a vehicle will need to utilize the vehicle access road, which would not be a safe pedestrian path.
